

How to remove yourself from groups that are not adding any value to your experience or your network on LinkedIn

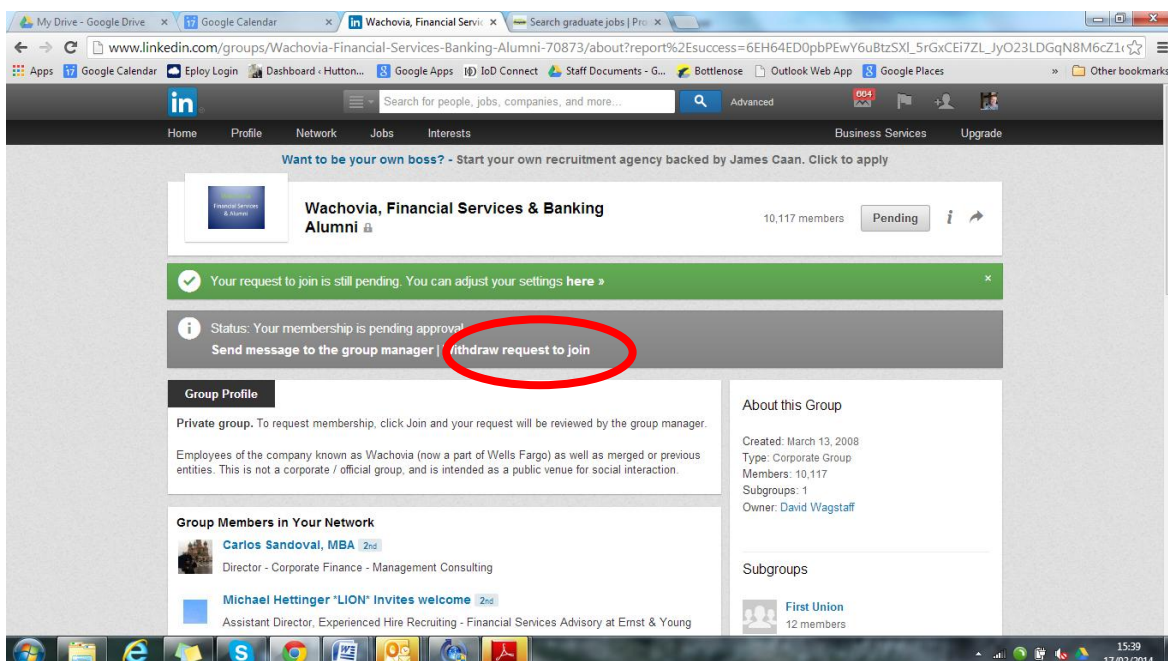

Go to your groups page (black bar at top - hover over Interests and slide down to Groups and click on it)

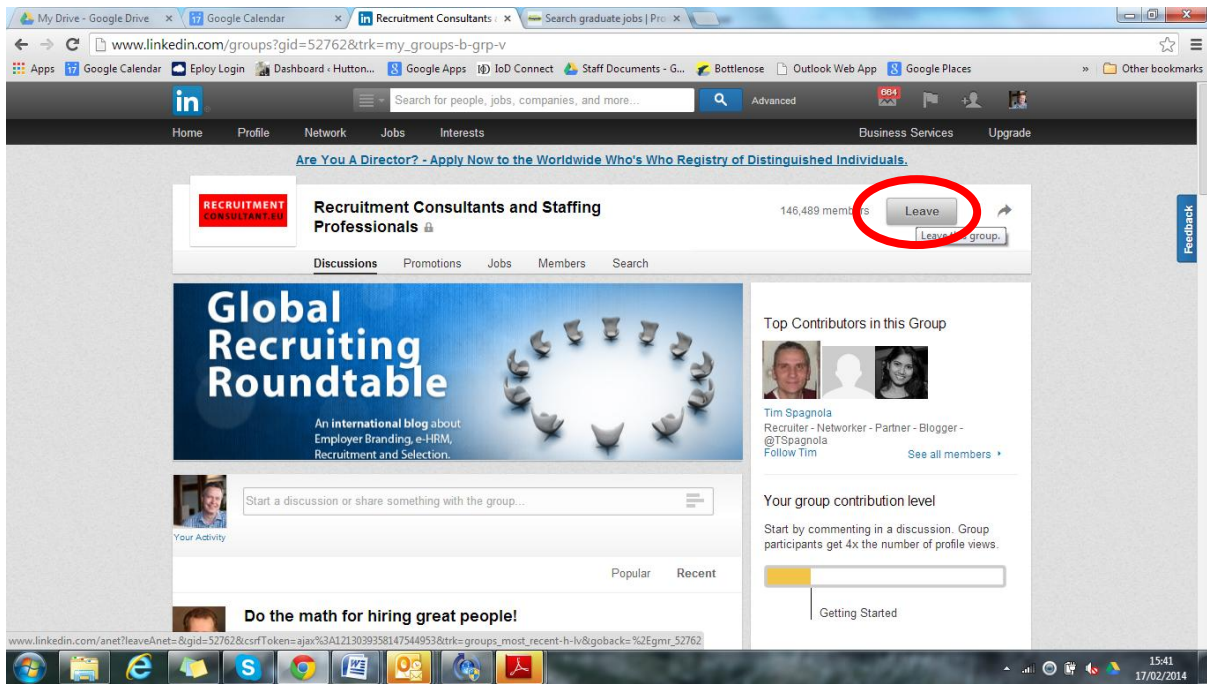

On the Groups Page - find which Groups you want to delete (or withdraw pending membership from).

Click on the group in question - if you are not yet a member you should see something like this. Just click on "Withdraw request to join":

If you are already a member then when you click on the group, you'll get this screen or something very similar. Hover over the button that says "Member" and you will see it turns to "Leave". Just click!

Still stuck? The email us - letstalk@huttonand.co
